EXPERIENCE

Full Stack Developer
Delsud / DCHESS

10/2023 - Present

achievements

- Development of the next application with AWS, React (Next14), and React Native.
- Utilized TypeScript and Zustand for state management.
- Designed and implemented responsive UI using Tailwind CSS and Material-UI.
- Collaborated with designers using Figma to create intuitive user interfaces.
- Competed directly with chess.com, providing an incredible platform to play chess.

React Native Developer and Frontend Web Developer
Teiki Company

07/2022 - 01/2024

achievements

- Built responsive web applications using React (Next.js), ReactNative CLI and TypeScript.
- Used Zustand for efficient state management.
- Implemented modern UI components with Tailwind CSS and Material-UI.
- Collaborated closely with the design team using Figma to ensure cohesive UI/UX.

Front-end Developer
Coderhood/

06/2020 - 09/2022

Projects/achievements

- Developed an online medication delivery system using React and TypeScript.
- Built a PaaS for sustainable business operations to measure waste prevention impact using React, TypeScript, React-Query, and Material-UI.
- Leveraged Next.js for server-side rendering and optimized performance.
- Managed state effectively using Zustand.
- Designed user interfaces with Figma and implemented them using Tailwind CSS and Material-UI

Front-end Developer
Akronym

08/2024 - Present   *La Plata*

achievements

- I designed applications in figma with good experience in ui and ux. In the same way I carried out its development with svelte.
- Projects of a horse registration app for Asoibero and another for a plastic medical center, Lelevier Plastic Admin System
